

Cory J. Behrendt

Chief Information Officer

cbehrendt@larkinhoffman.com

952.896.3352

Cory is responsible for IT services including strategy, business relationship management, architecture, systems, risk and security, and IT operations. He has over 25-years of experience in information technology with a broad background in enterprise IT strategy, operations, risk and security leadership, business applications, data center operations, and technology services in both small and large implementations.

Cory currently holds a degree in electrical engineering and management information technologies. Outside of the office, Cory served as chairman of his township, president in his congregation, director in his saddle club and a county 4-H leader and coach. He greatly enjoys horses, water sports, camping and spending time with the family.
